Gas Station Accounting Setup

1) Download "GASSETUP.EXE" and Install.
2) Check date of "GAS.EXE" and "GASSETUP.EXE", if "GAS.EXE" is newer than copy "GAS.EXE" to installed folder. (Default "C:/GASACC")
3) Once you installed, Run "Gas Station Accounting" from Desktop or Start Menu->Programs->Gas Station Accounting. (You can Rename "Gas Station Accounting" to your Store Name)
4) User name is "JITPATEL" and password is "J" (Capital lock is already ON). You can add your own log-in in Configuration->User Maintenance.
5) Change your Store Information (Configuration->Store Information)
6) Add Inside Sales Items (Configuration->New Items)
7) Add Paid out Vendors (Configuration->New Paidout)
8) Add Commission Company (Configuration->New Commission Company)
9) You can Setup Email(Configuration->Email System Setup), Add Accounts for Expenses(Configuration->New Account), Change Back Ground Picture for Program(Configuration->Picture)
10) If you Own store and like to track Gasoline purchase, setup Gasoline Product(Configuration->New Gasoline Products), Setup Gasoline Tax(Configuration->New Gasoline Tax Rate)
11) If you like to use Payroll System, you can add employees(Employees->Employee)

Tips:
1) Backup your data every day on USB Flash drive.
2) Make Different Folders for Different Stores and copy all files to new folder, so you can use program for as many store as you have. (e.g. C:\shell,c:\raceway…etc) Backup system will make separate backup file for each store.
3) You can Rename Sort cut for Each stores.
